Free participation
Up to 500 people
Application required

Tales from the Field: An Invitation to Criminological Research in Asia

Doing criminological research in Asia can be a daunting challenge that is full of pitfalls for foreign researchers. Yet for those who can master the terrain, there is much to be learnt and exchanged. In this seminar, we will explore the challenges that can arise in the field and how these have been dealt with. Looking towards the 12th Annual Asian Criminological Society Conference, which will be held between 18-21 June, 2021 in Kyoto, Japan, we will also consider the benefits of presenting your work at international conferences and the opportunities that Asian contexts offer for international and comparative criminologists.

- Interested in comparative criminology?
- Planning on doing research in an Asian context?
- Want to find out more about the challenges and opportunities of doing research in Asia?

>>Then this event is for you!

Event Program

- Getting in and getting on
- Getting out and getting published
- Q&A
- Panel discussion on international presentations
